BUILDING LAN
Main closet with a S2500 acting as the LAN router. All VLANs and VLAN Interfaces are created here. Thus, VLAN 13 Interface has the IP 10.72.192.1
Closet 2 with a S2500 acting as the L2 aggregate switch for the closet. I want to use VLAN 13 as mgmt VLAN. Interface for vlan 13 is 10.72.192.2 /24
Closet 3 would have a similar setup as closet 2
Closet 2 with a S2500PoE acting as the L2 aggregate switch for access points. I want to use VLAN 13 as mgmt VLAN. Interface for vlan 13 is 10.72.192.3 /24
