Introduction

The AP-200-CVR-20 AP Cover kit clips onto the exterior of the AP, offering a practical and aesthetic solution for AP concealment or customization.

Installing the AP-225-CVR-20 AP Cover

1. Align the cover with the AP so that the LED display on the AP is matched with the LED slots on the cover.
2. Fit the bottom corners of the cover around the AP, then press the cover onto the AP until all corners are securely clipped into place.
